Projects

- AAIB Mobile Banking Application** — React Native, TypeScript, JavaScript, GraphQL
Currently contributing to the development and enhancement of AAIB’s mobile banking application, including customer-facing banking journeys, reusable UI components, navigation, state management, frontend/backend integration, debugging, and feature improvements.

Jan 2026 – Current

SmartWealth: AI-Powered Finance App — Mobile App, AI, FinTech	Aug 2026 – Current
Developing a finance application that helps users manage budgets, set financial goals, receive AI-driven financial insights, and support secure payment and transfer functionality.	
VYBEE: AI-Powered Hangout App — Mobile App, AI, Social	Aug 2026 – Current
A vibe-based social discovery app that recommends personalized outings and experiences based on users' location, budget, time, group, and preferences.	
Thesis Project: AI + IoT for Animal Diagnosis — Java, Swing, AI, IoT	Feb 2025 – May 2025
Integrated wearable IoT sensors with AI-based pattern recognition for animal-health monitoring in the context of sustainable development.	
Digital Marketing Project: SmartWealth — Business Strategy, Content Marketing, SEO	Dec 2024
Developed a complete digital marketing strategy for an AI-powered finance assistant, including business model development, customer personas, content strategy, SEO, and competitive analysis.	
Information Security Project: Encryption Algorithms — Java	Nov 2024
Implemented Vigenère Cipher, Playfair Cipher, and RC4 stream cipher to demonstrate practical cryptography concepts.	
Information Security Project: Password Strength Analyzer & RBAC System — Java	Oct 2024
Developed a password-strength analyzer with real-time entropy-based feedback and implemented Role-Based Access Control for managing user roles and permissions.	
Data Mining Project 3: K-Means Clustering — Python	Dec 2024
Implemented K-means clustering to group music genres based on audio features, analyzed cluster characteristics, and generated similarity-based recommendations.	
Data Mining Project 2: Decision Tree Classification — Python	Nov 2024
Built a decision-tree model to predict telecom customer churn, identified key churn indicators, visualized the tree, and evaluated model performance.	
Data Mining Project 1: Linear Regression — Python	Oct 2024
Applied multiple linear regression to a used-car dataset to predict prices after data cleaning, preprocessing, visualization, and model evaluation.	
Cloud Infrastructure Workshop – Berlin — VMware, Dell CIS, Red Hat Linux, OpenShift	Jul 2024
Gained practical exposure to enterprise infrastructure and cloud-related technologies.	
Software Engineer: Nonprofit Organization Website — HTML, CSS, JavaScript	Apr 2024
Designed and developed a donation platform supporting non-monetary contributions.	
Project Management: Madina Menawara Online Ordering System — HTML, CSS, JS, Microsoft Project	Apr 2024
Led the design and development of an online ordering system and managed the project using WBS, Gantt charts, and Microsoft Project.	
Database 2: Database Engine — B+ Tree Indexing	Feb 2024 - Apr 2024
Developed a small-scale database engine supporting advanced search and efficient indexed data retrieval.	
Database 1: Advising System Database — SQL, C#, HTML	Nov 2023 - Dec 2023
Built a system supporting student guidance and GPA monitoring using application development and database concepts.	
Computer Science 3: Last Of Us Game — Java, Swing	Feb 2023 - Apr 2023
Developed a turn-based survival game applying object-oriented programming principles.	

Certifications & Professional Development

A Practical Introduction to Cloud Computing — <i>Udemy Business</i>	2026
Understanding APIs and RESTful APIs Crash Course — <i>Udemy Business</i>	2026
Security Awareness Training: Internet Security for Employees — <i>Udemy Business</i>	2026
The Project Management Course: Beginner to Project Manager — <i>Udemy Business</i>	2026
Process Improvement: Lean Out Your Operation — <i>Udemy Business</i>	2026
Executive Briefing: Robotic Process Automation (RPA) — <i>Udemy Business</i>	2026
Faculty of Management Technology Conference — Presented work on “Positive Performativity and Transformative Management Research: Navigating Megatrends for the Centennial”	2025
Elements of AI for Business — Tech Pathways MENA / Village Capital / MinnaLearn / University of Helsinki	2025
Red Hat System Administration I (RH124)	2024
NxL Youth Empowerment Program	2024
EGBANK Financial Literacy Program	2019
Young Entrepreneur Program — ISPARK	2018–2019
Certificate of Merit, Highest Honors	2016–2021
DELF A1–B2 Certifications	2016–2018
